
A Message from the Principal

Every year our students start a new adventure in their education. They arrive with that wide-eyed look for which every teacher watches. Through the years at St. Michael they are called to serve as an example of Christ's love. Their teachers empower each of them to be a life-long learner with a knowledge and love of God in the Catholic tradition. Our students proudly compete in spelling bees, science fairs, academic competitions, musical performances and athletics. It is a pleasure to watch our students grow each year. We hope that while they attend St. Michael's they will make memories and friends that will last a lifetime. These students are our future leaders and part of our St. Michael's Legacy.

Through St. Michael's Catholic School, we guide our children to pursue excellence in:

Achieving Academic Merit

- Academic curriculum which includes pre-school through the eighth grade
- Small class sizes
- Highest ranking ISTEP+ scores in the county
- Variety of middle school electives

Believing in Jesus Christ

- Catholic and family values
- Strong Parish support
- Strong Catholic Identity

Creating Future Leaders

- State of the art computers in all classrooms
- Multimedia presentation opportunities
- Service learning opportunities
- Cooperation among school, family and community members

Developing Self Discipline

- High emphasis placed on study skills and homework habits
- Performance opportunities highlighting skills developed through academics
- Many graduates excel in high school and receive top ranking in their class.

**St. Michael's Catholic School
Mission Statement**

*Led by the Holy Spirit, St. Michael's Catholic School encourages our students to grow in their Catholic faith, achieve academic excellence and become responsible citizens.
2006*

Vision Statement

St. Michael's Catholic School is committed to meeting the needs of each child and building self esteem. By fostering growth in the Catholic faith, St. Michael's offers students the opportunity to make good life choices, that will have a positive influence in the future. Our curriculum encourages cooperation among the school, parents, and children, as well as the outside community. The education that students receive will motivate them to develop self discipline. We want all students to reach their full potential and aspire to be life long learners.
